**COURSE SPECIFICATION DOCUMENT**

**Academic School / Department:** Business

**Programme:**
- BA Business Management: Finance
- BSc Accounting and Finance

**FHEQ Level:** 5

**Course Title:** Principles of Investment

**Course Code:** FNN 5205

**Course Leader:** Ivan Cohen

**Student Engagement Hours:** 120 (standard 3-credit BA course)

- Lectures: 30
- Seminar / Tutorials: 15
- Independent / Guided Learning: 75

**Semester:** Fall, Spring

**Credits:**
- 12 UK CATS credits
- 6 ECTS credits
- 3 US credits

**Course Description:**
Focusing on financial investment, the course familiarizes the student with a range of financial instruments and capital market operations, including new issues, trading, and the role of financial intermediaries in the investment market. Investment companies are investigated. Fundamentals of portfolio theory—both Markowitz and CAPM—are examined and applied to investment appraisal and management. Valuation of a range of securities—including fixed-income and equity—is discussed on the basis of capital market theory. The course introduces financial derivatives, including options, futures, forward rate agreements, and interest rate swaps, relating their use to fixed-income investment, portfolio analysis, and interest rate risk management.

**Prerequisites:** MTH 4110 and MTH 4120

**Aims and Objectives:**
The course aims to provide students with the ability

1. to understand financial instruments and financial markets and be familiar with the basics of finance theory
2. to assess the various theoretical models presented in class with regards to their validity
3. to assess different investment alternatives, and
4. to explain how pricing is determined and any consequent decisions.
