Assessment:

This course conforms to the Richmond University Standard Assessment Norms approved at Academic Council on June 28, 2012.

Teaching Methodology:

Teaching will be a combination of lectures, seminar discussions and workshops, using case studies and drawing on students' own experiences where appropriate. Lectures will be designed to cover the fundamental issues and build upon the recommended book chapters from the reading list and additional recommended readings. Students will be advised to supplement lecture notes by reading the relevant indicative reading(s).

The lectures will be participative in nature and will encourage commentary, application to real life scenarios/experiences and questioning to help develop deep learning and understanding, in addition to transferable skills.

Weekly seminars will support and enhance student learning through the presentation of information in a coherent and concise manner. Seminar sessions will require both individual and team participation and students will be encouraged to come prepared to participate in class.

Powercampus will be used to upload lecture notes and other essential course-related information.
