1. INTRODUCTION

This document describes the **BA (Hons) Film Studies with Combined Studies** awarded by Richmond University, the American International University in London, using the protocols required by *The Framework for Higher Education Qualifications in England, Wales, and Northern Ireland* (QAA, 2008).

The degree is delivered within the framework of a US Liberal Arts undergraduate degree programme. Typically students complete 40 separate courses over the programme which takes 3.5 to 4 years (approximately 10 courses per year, with summer courses allowing for accelerated progress in some cases). Normally, each course carries 3 US academic credits (equivalent, approximately, to 3 classroom contact hours per 15 week semester). On this basis, students are required to earn a total of a minimum 120 US academic credit hours in order to complete their degrees. Of these 40 courses, roughly half are at the “lower-division” taken in the first two years of study and coded 3000-4999, and half are at the “upper division”, taken in years three and four, and coded 5000-6999.

The degrees are also articulated in terms of UK Regulatory Frameworks, chiefly the *FHEQ* and the *Higher Education Credit Framework for England*. Each course has been assigned to an appropriate level on the *FHEQ*, based on the course’s learning outcomes and assessment strategies (note that the courses comprising the first year of the 4-year US undergraduate degree are normally at RQF Level 3). US undergraduate credit can generally be translated to ECTS and UK CATS credits in the following manner: 1 US credit = 2 ECTS credits = 4 UK CATS credits. So a US degree of 120 credits would translate as 240 ECTS credits and 480 UK CATS credits (with a minimum of 360 UK CATS credits at Levels 4-6 on the *FHEQ*).

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities that are provided.

More detailed information on the learning outcomes, content, and teaching, learning and assessment methods of each course can be found in course specification documents and syllabi.

The accuracy of the information contained in this document is reviewed by the University and may be verified by the Quality Assurance Agency for Higher Education.

3. ABOUT THE PROGRAMME

BA (Hons) Film Studies with Combined Studies is distinctive in that it broadens the academic experience of the students as a consequence of Richmond's US Liberal Arts multidisciplinary framework and General Education requirements, and deepens it as a result of the sequence of course requirements within the program. Operating from a firm, theoretical interdisciplinary base, the degree provides an exploration of the central role and function of Film Studies as one of the dominant forms of communication and as a social and political force, and seeks to achieve specific learning outcomes based on a fundamental understanding of the principles of message and audience, content and medium, form, style, documentation, dissemination and reproduction. It also offers a considerable practical component with specific classes developing a number of different experiential learning opportunities. Taking its cue from the QAA Benchmark document the degree does not rely solely on Film Studies classes specifically; its class offerings are "characterised by a diversity of emphases" (2.2), including, but not limited to, a "significant historical component", "professional practices" and "practical or technical aspects".

Film Studies, also known elsewhere as Screen Studies, is a growing discipline in undergraduate education globally. The structure of the Richmond degree programme allows the flexibility necessary to reflect this growth and to attract new students who may combine it with other areas such as American Studies, Communications, History, Art, Design and Media. The programme is constructed around a common core of courses (taken at the same time as General Education/Combined Studies courses) in the first and second years. These are followed by specialized third and fourth year courses, culminating in Senior Seminar I and II for which students complete an extended essay using primary and secondary research resources. In the final year students also undertake two practical courses during which their film production skills are developed. These theoretical and practical course offerings, a ratio of roughly 70/30, prepare students intending to pursue relevant postgraduate study and/or related careers. Students have the opportunity in their third and fourth years to choose from a variety of specialized courses which most closely match their talents and interests, and may also take an internship.

The programme aims to meet the wide ranging, specific needs of an international student body. Students interact with and gain understanding from other students from over 100 nations, in which no single national group predominates, bringing a knowledge and awareness of the "global village" and its implications on world communication systems and processes. Such an approach is in keeping with the QAA Benchmark Document in Communication, Media, Film and Cultural Studies, which emphasises the development of "wider understandings of the diversity of forms of culture" (1.4). Focusing on critical issues such as globalisation, developing technologies and the growing interdependence of different cultures, Film Studies students at Richmond participate in a substantive study of new research from multicultural frameworks. In keeping with the international mission of this liberal arts university, students are guided towards developing critical thinking and engagement with analysis of the mass media and enquiry regarding cultural, ethnic and gender differences. The Richmond degree in Film Studies also utilises a variety of new technologies that have transformed intercultural communication processes. The discipline's practice includes

videography, scriptwriting, graphics as well as computer-aided communication involving multimedia design and animation. Richmond is also committed to ensuring that Film Majors have a large dedicated venue with proper blackout facilities where they can watch screenings. Throughout the degree, students are encouraged to work independently and in teams on creative, technology-based products which reflect and build on their theoretical knowledge and on their developing practical skills for future employability.

The Film Studies major at Richmond prepares students in the areas of adaptive competence, critical thinking, aesthetic sensibility, professional identity and ethics, and leadership capability – all areas that are necessary for success in today’s world. The Richmond Film Studies degree, with its unique intercultural focus, enables students to respond appropriately and effectively to a rapidly changing world and to master the skills necessary for success in the 21st century.

4. MISSION

The Film Studies Major aims to be a vibrant, cross-disciplinary programme that focuses upon historical, critical, theoretical, and practical approaches to the study of film. It prepares students to work within the technologically driven, global, media revolution of the 21st Century, helping students to develop as leaders in their careers and communities. Through a close analysis of particular national and international examples, and with a specialist emphasis on intercultural themes, the degree examines the historical, political, artistic, economic, industrial, technological and cultural aspects that go into cinema production. A strong technical and practical element of the degree complements the theoretical component, with classes on topics such as video production, acting and screen writing, and documentary film production. Thus the Major provides an interdisciplinary and multimedia approach, imparting a theoretical knowledge with strong elements of practical training. Its elective courses allow students to develop a global awareness of film and related media within the framework of the liberal arts tradition.

5. PROGRAMME STRUCTURE

BA (Hons) Film Studies with Combined Studies degree

A normal course load per academic year is 30 US credits, equivalent to 120 UK credits. Students complete 120 UK credits at Level 6 in the major.

Please note that students must complete all Liberal Arts requirements AND a minimum of 120 credits at each FHEQ level. The Liberal Arts programme offers more choice amongst levels, so students and advisors must ensure that both Liberal Arts requirements and overall level requirements are satisfied. As long as a minimum 120 credits per level is achieved, Liberal Arts Options I and II will be automatically fulfilled.

8. TEACHING, LEARNING, AND ASSESSMENT

Teaching Strategy

The teaching and learning strategy adopted within the BA (Hons) Film Studies with Combined Studies degree is based on the understanding that all students will be treated as active learners. Clearly, the precise approach will vary from course to course, depending on the learning outcomes relevant to each class.

The generic components of our teaching and learning strategy normally involves a variety of approaches and include delivering many of the following:

- Regular use of formal lecture sessions in all courses.
- Occasional workshops and seminars in some courses.

- Regular use of individual and/or team-based projects in all courses.
- Regular use of self-directed and directed reading in all courses.
- Peer-tutoring led by advanced students in many courses.
- Use of audio-visual and library resources in some courses.
- Regular use of tutor- and student-led discussion groups via e-learning platforms such as PowerCAMPUS (or Blackboard) in many courses.

The combination of teaching and learning approaches mentioned above develops our students' knowledge, thinking skills and practical skills.

Their knowledge is acquired through

- Structured lectures and supporting materials
- Directed reading and use of internet materials
- Independent research

Their cognitive skills are developed through

- Conducting research
- Making presentations and preparing other assessments
- Helping others to learn

Their practical skills are gained through

- Application of theory to practices encountered during internships
- Using information technology to retrieve and manipulate data
- Negotiating by means of team-based projects

Their key skills are gained through

- Employing and using appropriate linguistic skills
- Independent learning

Assessment Strategy

The assessment strategies we use with our BA (Hons) Film Studies with Combined Studies degree speak directly to how we anticipate progression with student learning to take place.

In terms of following up with the assessment of student learning and consistent with US liberal arts traditions, our classes rely on the system of continuous assessment on a course by course basis and throughout any given semester. This approach often involves the use of term-papers, portfolios of work, quizzes, mid-semester and final exams as well as student presentations and general class discussion. Not every component applies to every course, but most do relate to many of the classes that are offered. Many of our courses involve a site visit or require attendance at a public lecture as well. Students generally find these events to be extremely valuable to their learning.

Courses will follow the University Assessment Norms, details of which are listed in each CSD.

Each senior will end their programme with a dissertation which will normally have 8,000-10,000 words.

9. ENTRY REQUIREMENTS

Admissions

Details of the entry requirements, including English language requirements, may be found at the appropriate page of the University website listed below, where a comprehensive Admissions Policy and Summary of Practice document is also published.

<https://www.richmond.ac.uk/undergraduate-admissions/>

Transfer Credit

Prospective students with specific levels of subject achievement in Advanced Placement Tests, GCE A Levels and some other UK and international qualifications may enter with Advanced Credit and be given exemption from certain courses of the programme. Please see the Transfer Credit Policy Undergraduate for details.

10. EXIT AWARD REQUIREMENTS

An exit award is defined as a lower award than one for which the student is registered. Such an award may be conferred if a student completes part, but not all, of the requirements of the programme for which he or she is registered. Students may not enter the university registered for an exit award.

Associate of Arts Degree in General Studies (US)

The US Associate of Arts (AA) degree can be awarded as an exit degree for those students completing the following minimum requirements.

30 US / 120 UK credits at RQF Level 3

30 US / 120 UK credits at FHEQ Level 4

Of the total number of credits required for the AA degree, 30 US/120 UK credits must be completed at Richmond. Students must obtain a minimum cumulative GPA of 2.0 and a major of 2.0 in order to qualify for this degree. Latin Honours are not applied to the AA Degree.

The requirements for the AA degree are outlined in Table 1 above. All Level 3 and 4 Major and General Education Liberal Arts Core Requirements must be completed.

Certificate of Higher Education in Film Studies (UK)

The UK Certificate of Higher Education (CertHE) can be broadly aligned with the US Associate of Arts Degree, but the CertHE does not require the completion of 30 US/120 credits at RQF Level 3. Students who qualify for the AA degree will automatically qualify for the CertHE. But students may qualify for a CertHE without fulfilling the requirements for a

US AA degree if they have not completed all of the RQF Level 3 requirements necessary to obtain the AA.

Students may not be awarded more than one exit award (notwithstanding dual accreditation of the AA/CertHE) and Boards will recommend the most relevant one for the individual student circumstance for any student meeting the criteria for an award to be made.

The UK CertHE can be awarded as an exit award for those students completing the following minimum requirements.

120 credits at FHEQ Level 4

- Pass (normally a GPA of between 1.85 and 2.99 for all Level 4 courses)
- Merit (normally a GPA of 3.0 to 3.54)
- Distinction (normally a GPA of 3.55 and above for all level 4 courses)

Of the total number of credits required for the UK CertHE, 15 US/60 UK credits must be completed at Richmond.

The requirements for the UK CertHE are outlined in the section of Table 1 pertaining to FHEQ Level 4 requirements. All Level 4 Major and General Education Liberal Arts Core Requirements must be completed.

Diploma of Higher Education in Film Studies (UK)

The UK Diploma of Higher Education (DipHE) has no US equivalent. The UK DipHE can be awarded as an exit award for those students completing the following minimum requirements.

120 credits at FHEQ Level 4

120 credits at FHEQ Level 5

- Pass (normally a GPA of between 1.85 and 2.99 for all Level 4 courses)
- Merit (normally a GPA of 3.0 to 3.54)
- Distinction (normally a GPA of 3.55 and above for all level 4 courses)

Of the total number of credits required for the UK DipHE, 15 US/60 UK Level 4 credits and 15 US/60 UK Level 5 credits must be completed at the University.

The requirements for the UK DipHE are outlined in the sections of Table 1 and Table 2 above pertaining to FHEQ Level 4 and FHEQ Level 5 requirements. All Level 4 Major and General Education Liberal Arts Core Requirements must be completed. Level 6 courses can be “dipped-down” to fulfil missing Level 5 credits.

Students may not be awarded more than one UK exit award and the University Examination Board will recommend the most relevant one for the individual student circumstance.

11. STUDENT SUPPORT AND GUIDANCE

There is a range of student support and guidance, for both academic and general wellbeing, available to students. This is accomplished through a range of programmes and services which positively impact learning as well as the total student life experience.

All students have an allocated full-time faculty member who acts as their academic adviser. Academic Advisers have on-going responsibility for students' academic progress, meeting with each advisee at least once per semester. Advisers assist students with registration, enabling smooth progression through the degree. They also advise on postgraduate and career opportunities, and also provide pastoral support in many cases.

A range of Maths, English, Technology and Writing workshops have been established to support students with particular needs in these areas. Librarians are on hand to assist with library use, which includes instruction in web-based resources.

The University endeavours to make all practical and reasonable adjustments to ensure students are able to fully participate in the University community. Students who declare a physical disability or a special educational need are supported to ensure the quality of their educational experience meets their individual requirements. SEN students, for instance, receive extra time in examinations, and have the option of writing exams on university-provided computers, and/or of taking exams in a separate room.

The University operates a well-staffed Student Affairs department that provides services intended to support and encourage student welfare, safety and development. This department oversees medical registration of students and provides counseling services. It also organizes a range of extracurricular activities and travel designed to further enhance students' educational experiences. Disciplinary and social grievance procedures are also overseen by this department.

12. PLACEMENT

The Internship Office the University offers a formal mechanism through which students may receive work-placement opportunities. These placements are supervised, career-related work experiences combined with reflective, academic study that help students apply theoretical knowledge in the workplace. Participation in the internship programme is optional, but students who choose to take up a placement receive academic credit for their placement and associated academic work (see level 6 options).

Expectations with regard to careers education, information, advice and guidance (as outlined in the section on Enabling Student Achievement in *The UK Quality Code for Higher Education*) are handled by the university's Student Affairs department. This department conducts a variety of career services for students, ranging from resource provision to a CV service, and in particular through the LEAD (Leadership, Education and Development) seminar series.

In addition to these services, the alumni office offers networking opportunities where students may contact alumni working in a variety of fields. The alumni office also offers these services via social media such as LinkedIn and Facebook.
